A mental health initiative against its taboos. Helps spread awareness and deal with mental health among all individuals.

EXPERIENCE

GeekyAnts India Pvt Ltd

Senior Software Engineer

Bengaluru, India

Jul, 2023 – Present

- Led the development of **Flutter Gluestack**, optimizing UI rendering speed by **156% (97.82ms vs. 250.66ms)**, enhancing performance & scalability.
- Designed and implemented an **offline logout system** for an **inspection platform**, resolving **critical payroll issues** for daily users.
- Engineered **optimized package upgrades** and **restructured core architecture**, reducing app load time by **40%** via performance profiling.
- Redesigned key user interfaces to improve UX and led sprint planning using JIRA for faster task allocation and delivery.

GeekyAnts India Pvt Ltd

Software Engineer

Bengaluru, India

Jul, 2021 – June, 2023

- Built **Flutter Starter**, an **open-source boilerplate** with **460+ GitHub stars**.
- Engineered a React & Web3-powered multiplayer soccer management game, enabling **3,350+ players**, **1,480+ active users**, and **5.4M+ blockchain transactions**, improving user engagement & scalability.
- Spearheaded front-end development for a high-profile dating app, leading a 5-member team and ensuring timely releases.
- Integrated **Strapi CMS** for a job-search platform, enabling dynamic content updates.
- Mentored junior developers by creating training materials and providing hands-on guidance.

GeekyAnts India Pvt Ltd

Trainee Software Engineer

Bengaluru, India

Sep, 2020 – June, 2021

- Developed a **mutual fund mobile app** with **user authentication**, **fund comparison**, and **investment tracking**.
- Built UI components for a doctor-patient telemedicine app, enabling secure messaging and appointment scheduling.
- Maintained a crypto payment app, **enhancing transaction speed** & user experience.

KEY ACHIEVEMENTS

- Won 1st place in a 12-hour hackathon by GeekyAnts for building a full-stack application from scratch.
- Secured runner-up position in a 24-hour AI hackathon focused on innovative use of generative AI.
- Represented in an international-level Web3 hackathon, building a blockchain-based utility app.
